

# Patient Risk Report

## Patient Readmission Risk Report

Patient ID: PT020100

Report Date: September 05, 2025

Predicted Risk: Low (Probabilities: {'High': '0.2%', 'Low': '92.6%', 'Medium': '7.2%'})

### Main Risk Factors

- Your blood pressure is currently normal.
- You do not have diabetes.
- Your age (37) is a factor contributing to your low risk.
- Your neighborhood has a relatively low poverty rate and a good median income.

### Local Resources

- Smith County Memorial Hospital
- Cedars of Lebanon

### Recommended Interventions

- Maintain your healthy lifestyle by continuing to eat a balanced diet and engaging in regular physical activity.
- Schedule regular check-ups with your doctor to monitor your overall health.
- Continue to seek support from Cedars of Lebanon or similar organizations if needed.

### Next Steps and Advice

- Your chances of needing to be readmitted to the hospital are currently low. This is great news!
- To help maintain this, please remember to keep your doctor's appointments and follow their recommendations.
- Living a healthy lifestyle plays a big role in preventing future health problems, so continue prioritizing your well-being. If you have any concerns, please don't hesitate to contact your doctor or a member of our care team.
