## Patient Readmission Risk Report

Patient ID: PT020100

Report Date: September 06, 2025

Predicted Risk: Low (Probabilities: {'High': '0.2%', 'Low': '92.6%', 'Medium': '7.2%'})

### Main Risk Factors

- Your blood pressure is currently normal.
- You do not have diabetes.
- Your age (37) is associated with a lower risk of readmission.
- Your neighborhood has a relatively low poverty rate and a good median income.

### Local Resources

- Smith County Memorial Hospital
- Cedars of Lebanon

### Recommended Interventions

- Maintain a healthy lifestyle through balanced diet and regular exercise. This will help you stay healthy and reduce your risk of future complications.
- Continue regular check-ups with your doctor to monitor your overall health.
- If you have any concerns or questions, don't hesitate to contact your doctor or a member of your healthcare team.

### Next Steps and Advice

- Your predicted risk of readmission is low, which is excellent news! It's important to continue focusing on maintaining your health. Regular check-ups and a healthy lifestyle can help you stay well. Remember to reach out if you have any concerns. We are here to support you.
